

Well 9

Building that houses
filtration units for
Well 9.

Well 9

Main treatment and
polishing units for
Well 9.

Well 9

Main treatment and
polishing units for
Well 9.

Well 9

Automatic valves that control flow of raw water between the main treatment and polishing units for Well 9.

Well 9

Well 9 is unique from our other wells in that the building housing the filtration units is not the same as where the water is being pumped from the ground.
